TYPES OF CARE

Most patients that come to our office have one of two objectives in mind concerning their health care. Some patients come for symptomatic relief of pain or discomfort (Relief Care). Others are interested in having the cause of the problem as well as the symptoms corrected and relieved (Corrective Care). Your Doctor will weigh your needs and desires when recommending your treatment program.

RELIEF CARE	CORRECTIVE CARE
Relief Care is that care necessary to get rid of your symptoms or pain, but not the cause of it. It is the same as drying a floor that was getting wet from a leak, but not fixing the leak	Corrective care differs from relief care in that its goal is to get rid of the symptoms or pain while correction the cause of the problem. Corrective care varies in length of time, but is more lasting.

Please check the type of care desired so that we may be guided by your wishes whenever possible.

☐ **Relief Care**   ☐ **Corrective Care**   ☐ **Check here if you want the Doctor to select the type of care appropriate for your condition**

INFORMED CONSENT

The determination of an appropriate plan of medical management or orthopedic conditions may involve or include the utilization of muscle testing and/or exercise rehabilitation procedures. Should these procedures be deemed appropriate in your case, you will be examined by a doctor to determine if you have any conditions that indicate you should not engage in muscle testing or rehabilitation exercises.

I understand that, as with any form of exercise, muscle testing and rehabilitation procedures carry with them a small inherent risk of injury, which includes but is not limited to minor strains of the specific muscles being used during testing or rehabilitation. Additionally, as is the case with most health care interventions, there is a certain (albeit rare) inherent risk of complication associated with physical examination, physiotherapeutic, massage therapy, acupuncture and spinal manipulation procedures. These complications include, but are not limited to muscle strains, dislocations, skin irritation, costovertebral sprains, electrical shock, fractures, disc trauma, minor burns and stroke. I understand my doctor will not be able to anticipate all potential complications, but elect to rely on his/her clinical expertise and judgment to determine reasonable courses of clinical action, based upon known facts, which are considered to be in my best interest. I understand that results are not guaranteed and that I have the opportunity to discuss the purposes and risks associated with all recommended evaluation and treatment procedures at any time.

I have read and understand the preceding statements and hereby consent to voluntarily participate in a physical examination, physiotherapeutic, manipulative, massage, muscle testing/rehabilitation acupuncture and/or other procedures as deemed appropriate by my doctor. If at any time I am unwilling to engage in these procedures, I reserve the right to inform my doctor of such and not participate in these forms of evaluation or treatment.

Should I decide to receive treatment, I understand that I will be ultimately responsible for any and all charges incurred at Health Point Wellness Clinic. After a charge is 30 days past due a finance charge of 1.5% per month may be added. If any of my checks bounce, I will be billed a service fee. I hereby authorize Health Point Wellness Clinic to disclose medical information pertaining to my case to medical/technical consultants deemed appropriate by my doctor and submit claims to my insurance carrier on my behalf. However, I understand that verification of my eligibility and benefits is not a guarantee of payment.

I HAVE READ AND UNDERSTAND THE ABOVE STATEMENTS.
